FARMERS AFTER FAIR PREMIUMS; COUNTY DONATION

The county commissioners yesterday at a special meeting set aside for the annual exhibit at the state fair. Heriberto Vialher, A. B. Sirmon and P. V. Elkins were appointed a committee to have charge of the exhibit.

The farmers of the county are going after the fair prize money. They feel that the suggestion that Peralillo county farmers break out of the competition for prizes is not logical and the suggested action is illegal for. They point out that it will not be a local fair in any sense of the word, but a state fair, and that Peralillo county is fully entitled to exploit its resources and competitiveness quite as much as any other division of the community.

Updegraff, Starter and Magnus Flaws Presiding Judge; A. W. Dobson to Manage Competitive Show.

Secretary Wiley of the state fair commission today announced that the officials for the race meet in October have been definitely decided upon.

A. W. Updegraff has been chosen as starter and Magnus Flaws as presiding judge. Both Updegraff and Flaws are known from coast to coast as prominent officials having served in important capacities at the race meet in 1910 at Francisco during the spring. The prospects are very bright for suspended races meet during the fair. The entries total \$10,000, with three harness and two running races each day. The entries range from twenty to twenty-five horses.

DISCUSSION

Statements have been made by those who say they are in position to know that the aim of the federal authorities is to keep the Mexican border where they cannot complicate the situation in Mexico further by starting or helping to start another revolution. The authority case is based on a certain affidavit that Salazar is alleged to have signed, and on testimony given at his trial for alleged violation of neutrality laws. The state department is said to be particularly glad that the case was at hand to enable the government to remain a hold on the Mexican general.

Salazar, looking with bitterness at the idea of his heading or helping to start a revolution. He says he is absolutely penniless, without means of replenishing his purse except for the kindness and charity of friends, and that it is the height of absurdity to picture a penniless man starting a revolution. Those who are close to Salazar have said that he tells the truth when he says all his means have gone. It is said that Mrs. Salazar, who lives in El Paso, is in such straitened circumstances that she can not afford to travel now and then to Santa Fe to visit her imprisoned husband.
